Company	Concrete North, Inc.	Project	UCDH Make Ready
Date	April 11, 2024	PREPARED BY	Miguel Garcia
Task	concrete pour		

Work Steps	Potential Hazards	Control Methods
Pour and finish 18 yards of concrete. Pour concrete on sidewalk and 3 light pole bases. We are going to pour the sleeves real careful to make sure they're level. And clean up.	Concrete burns. Miscommunication with the pump operator. Slips, trips and falls. Pedestrians crossing.	Wear PPE at all times while pouring. Have eye contact and only 1 guy making signals. Have 360 eye awareness and proper housekeeping. Have traffic control while guiding the concrete trucks and making sure we have our stop signs in hand.
