STATE : CA

Safety Compliance Company is not responsible for unsafe conditions and situations not seen during this inspection. The items listed above represent only what was seen by the Safety Compliance Company Representative at the time of the inspection. Safety Compliance Company is not responsible for any ongoing unsafe condition(s) whether seen or unseen. In addition, Safety Compliance Company does not have the authority or authorization to approve, certify, or warranty any safety equipment or safety device. This agreement also indemnifies Safety Compliance Company of any omission, gross negligence, willful misconduct related to this report. Under Federal, State and Local Law, it is the responsibility of the employer and all subcontractors to mark all hazards with appropriate signs

SUMMARY OF INSPECTION

52 Items Inspected	25 Satisfactory	0 Unsatisfactory	27 N/A
------------------------------	---------------------------	----------------------------	------------------

A safety inspection was carried out on site today. I was able to walk the site with James, and reviewed all safety concerns noticed on the spot.

James had all documentation and paperwork for the site filled out and kept on site. This includes:

- + Daily site inspections (digital)
- + Weekly tailgate meeting: "accident prevention"
- + Equipment inspections.

At the time of the inspection the crew was working on the rebar for panels on the south east side of the building.

- + All workers were observed, wearing proper PPE for the task at hand.
- + Plenty of cool drinking water was provided in coolers.
- + Restrooms were found in satisfactory condition with well stocked wash station.

James is doing a great job maintaining safe conditions for the crew at this location.

Overall, the active work area was clear of debris.

- + No safety hazards were observed at the time of inspection.

••• please see additional information below•••

INSPECTION ITEMS

Documentation

Site Contact	Satisfactory
---------------------	---------------------

Comment	
James was available to address all safety matters on the spot.	-

Safety Program (Including IIPP)	Satisfactory
--	---------------------

Comment
